

WELCOME TO ANGELS OF SAFETY

Welcome to the first **Angels of Safety Community Newsletter**.

Angels of Safety is a community-focused initiative dedicated to improving communication, awareness and cooperation within our community.

Our goal is simple:

A safer community starts with people looking out for one another.

Through responsible patrols, community involvement, reporting and cooperation with relevant authorities, we aim to contribute positively to the safety of the areas we serve.

COMMUNITY PATROLS

Our patrol members remain alert within the community and assist by identifying and reporting suspicious activity, safety concerns and incidents.

Our patrols are not a replacement for SAPS or emergency services. Where an incident requires law-enforcement or emergency intervention, the appropriate authorities should be contacted.

See something suspicious? Report it.

Small pieces of information can sometimes make a significant difference.

GHOST SQUAD

The **Ghost Squad** forms part of the Angels of Safety structure and focuses on maintaining a discreet presence within the community.

The concept is simple:

You may not always see us, but we are paying attention.

The team focuses on observation, communication and identifying potential safety concerns while operating within the law and working alongside the appropriate authorities when required.

COMMUNITY AWARENESS

Community safety isn't only about responding to incidents.

It is also about prevention and awareness.

We encourage residents to:

- Remain aware of their surroundings.
- Report suspicious behaviour promptly.
- Keep gates, doors and access points secure.
- Avoid sharing sensitive personal information publicly.
- Look out for vulnerable neighbours.
- Report incidents to the correct authorities.
- Keep emergency contact numbers readily available.

Awareness is one of the simplest tools we have.

WORKING TOGETHER

Angels of Safety believes that community safety works best when residents, community organisations, security providers and relevant authorities communicate and cooperate.

No individual or organisation can see everything.

A connected community sees more.

If you have information that may assist with a safety concern, please make sure it reaches the appropriate person or authority.

COMMUNITY PARTICIPATION

We encourage residents to become involved in their community and to take an active interest in local safety.

Whether it is reporting a suspicious vehicle, assisting a neighbour, sharing reliable information or simply staying alert, every responsible contribution matters.

IMPORTANT

Angels of Safety is not a replacement for SAPS, emergency medical services, fire and rescue services or other statutory authorities.

For emergencies or crimes in progress, contact the appropriate emergency or law-enforcement service immediately.

Do not place yourself or others in unnecessary danger.

FROM THE ANGELS OF SAFETY TEAM

Thank you to every resident, volunteer, member and community partner who contributes to making our community more aware, connected and safety-conscious.

Stay alert. Stay informed. Look after one another.

ANGELS OF SAFETY

Community • Safety • Partnership

Together, we make a difference.
